

## Metal Ammunition Cans (M.A.C)

With the use of top grade raw materials and the stringent quality control we maintained at the production line, Force 21's metal ammunition cans exceed the standard military specifications, MIL-B-3060E

Metal Ammunition Can

### M19A1

Material:  
Galvenised Steel

Approximate weight:  
1.60kg

Internal Dimensions:  
256.0mm (L) x 87.3mm (W) x 164.3mm (H)

Standard Finishing:  
Pre-treatment of phosphating followed by powder coating  
Forest Green (More colours are available upon request)

Metal Ammunition Can

### M2A1

Material:  
Galvenised Steel

Approximate weight:  
2.60kg

Internal Dimensions:  
279.4mm (L) x 141.3mm (W) x 171.5mm (H)

Standard Finishing:  
Pre-treatment of phosphating followed by powder coating  
Forest Green (More colours are available upon request)

Metal Ammunition Can

### PA120

Material:  
Galvenised Steel

Approximate weight:  
6.58kg

Internal Dimensions:  
438.2mm (L) x 139.7mm (W) x 241.3mm (H)

Standard Finishing:  
Pre-treatment of phosphating followed by powder coating  
Forest Green (More colours are available upon request)

Metal Ammunition Can

### PA108

Material:  
Galvenised Steel

Approximate weight:  
3.20kg

Internal Dimensions:  
301.6mm (L) x 171.4mm (W) x 207.6mm (H)

Standard Finishing:  
Pre-treatment of phosphating followed by powder coating  
Forest Green (More colours are available upon request)

Metal Ammunition Can

### NR68C1

Material:  
Galvanised Steel

Approximate weight:  
1.70kg

Internal Dimensions:  
253.0mm (L) x 74.1mm (W) x 169.0mm (H)

Standard Finishing:  
Pre-treatment of phosphating followed by powder coating  
Forest Green (More colours are available upon request)

Metal Ammunition Can

### M61

Material:  
Galvanised Steel

Approximate weight:  
1.84kg

Internal Dimensions:  
300.4mm (L) x 73.0mm (W) x 167.0mm (H)

Standard Finishing:  
Pre-treatment of phosphating followed by powder coating  
Forest Green (More colours are available upon request)

Metal Ammunition Can

### H84

Material:  
Galvanised Steel

Approximate weight:  
1.60kg

Internal Dimensions:  
279.4mm (L) x 82.5mm (W) x 174.0mm (H)

Standard Finishing:  
Wet paint finish  
Service Brown

Metal Ammunition Can

### H83

Material:  
Galvanised Steel

Approximate weight:  
2.60kg

Internal Dimensions:  
279.4mm (L) x 141.2mm (W) x 171.7mm (H)

Standard Finishing:  
Wet paint finish  
Service Brown
